

# INTENSIVE SCHOOL HOLIDAY PLAY THERAPY PROGRAM

Newcastle  
**PLAY THERAPY**

Recent research has proven that Intensive Therapy is highly effective for children with externalised behaviours such as:

- physical aggression
- angry outbursts
- Impulsiveness
- disobeying rules
- cheating
- stealing or destroying property

Through our Intensive Play Therapy program, we work with your child on a daily basis to consolidate upon their progress by providing them with the time and space to work through their thoughts and feelings.

\* Ritzi, Ray & Schumann (2016)
